If You Want You Can Measure Your Foot Length, Here's How:

1. Grab a sheet of paper and a pen.
2. Place the paper against a wall and stand on it with your **heels touching the wall**.
3. Mark the spot at the tip of your longest toe (it helps to have someone assist you).
4. Measure the distance from the edge of the paper (heel) to the line you marked (toe).
5. Add **3–5 mm** to allow space for your toes.
6. Compare your measurement with our **size chart** below.

Compare with Your Current Shoes

You can also check your existing shoes to see which size fits you best.
Below, you'll find a **comparison chart** between different brands and Orthora sizes — helping you choose your **perfect fit** with confidence.
